Teachers are heroes!

With the distractions of our daily routines it is easy to forget the heroes who inspired us and overlook the possibility that we might be the hero in someone else's story. Students often look upon teachers as role models and heroes. Though your role as a teacher may seem ordinary and mundane to you, to others you may be a hero.

Stories help us make sense of the world around us and stories are most powerful when delivered in person by a master storyteller. In this presentation master storyteller, JB Rowley, tells stories that highlight the value and inspiration of teaching.

Be seduced by the ancient tradition of oral storytelling: stories to entertain, stories to inspire, stories to transport you to other places. A powerful presentation to inspire teachers in their everyday lives.

Ideal for: conferences ♦ conventions ♦ functions ♦ award nights ♦ staff training
